-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. The Examiner has carefully considered Applicant's amendments and accompanying remarks dated 08/6/07. The pending claims at this time are Claims 1-6 and 8-16. Applicant's amendments to the claims have been entered, however the Examiner does not believe that Applicant has proper support for the amendment of a "single use" wipe. Applicant refers to the page 1, lines 24-29 and page 3, lines 24-26 for support of this limitation. It is the position of the Examiner that the reference to page 1 depicts what is known in the prior art and current state of the art and does not define Applicant's invention. The reference to page 3, does not resolve this issue any further either. Nowhere after the Summary of Applicant's own invention does the specification allude a skilled artisan to the notion that this article is a single use product. Therefore, this limitation is considered new matter and is rejected below.

2. With regard to the double patenting rejection, Applicant's arguments are found to be persuasive and the rejections are withdrawn. Applicant's submission of the Terminal Disclaimer over 10/699425 has been entered into the application.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-6 and 8-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of

the claimed invention. Applicant's amendments to the claims have been entered, however the Examiner does not believe that Applicant has proper support for the amendment of a "single use" wipe. Applicant refers to the page 1, lines 24-29 and page 3, lines 21-22 for support of this limitation. It is the position of the Examiner that the reference to page 1 is what is known in the prior art and current state of the art and does not define Applicant's invention. The reference to page 3, does not resolve this issue any further either. Therefore, this limitation is considered new matter and is rejected.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-6 and 8-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As Applicant has amended the claims in an attempt to overcome the art of Radwanski et al. (USPN 6734157) and they believe that the cited reference teaches multiple uses of the wipe, the Examiner questions that how is Applicant's wipe any different? Structurally they appear to be the same. Applicant's claims do not recite any special abrasion resistance or what makes their composite any different than that shown in USPN 6734157. How does a skilled artisan quantify this? Please clarify.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until

Art Unit: 1794

after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
